I took advantage General Smith's call on King, Tobruk (EMBTel 213 not sent London) to raise Libyan American negotiations on financial aspects base agreement. Said I had received new proposal from Washington recently which I had presented Prime Minister week before last and asked permission review what I had told Kubar. King replied his Prime Minister had informed him briefly of latest developments in negotiations but had suggested he would inform His Majesty in detail when negotiations were finally completed. Since he had not been informed in detail, King consented brief resume latest US position.

I reviewed orally most important points my presentation Prime Minister October 31, including mention specific figures FY 59 and proposals FY 60. King listened patiently, interrupting only once to express his approval of single development council, provided that it not spend money available to it "ad lib" but wisely. When I completed presentation, including our proposal for FY 60 King made no rejoined or comment of any nature.
